

K-Love has provided music and comment for my wife and I for several years that is inspiring, encouraging, and wholesome for all ages and is relevant on contemporary issues. We listen to K-Love on both home and automobile radios. We are financial supporters and appreciate having a program not interrupted by advertising from commercial companies. There are several other stations in the area that provide the alternative programming available through existing LPFM stations whose programing is not of interest to us. Charles & Annette Pidcock
